The Paralympics, ethics and engineering
2007:
IAAF introduce new rule to prohibit "use of any technical device that incorporates springs, wheels or any other element that provides the user with an advantage over an athlete not using such a device."
The Test  
Oxygen Consumption in Pistorius and able-bodied athletes during a 400m race at race-speed

The Finding
Pistorius used 25% less oxygen during his 400m race than the able-bodied runners

Conclusion
Pistorius uses **25% LESS energy** during 400m running than able-bodied runners
Doping...
